Fire Instructor Testing Software, LLC

PRICE LIST as of January, 2023

QUIZ GENERATOR – $99

With this easy-to-use software, you can assemble a written quiz in minutes instead of hours! Use it to open a bank of test questions, view, select, edit and write questions, customize, preview, and print a quiz and answer key, etc. The Quiz Generator by itself doesn't come with any "built in" questions- use it to write your own questions, or buy our Question Banks, or both. Runs on Windows 7 or newer.

QUESTION BANKS

Question Banks are databases of multiple choice questions formatted for use with the FITS Quiz Generator or with ExamView by Turning Technologies. Questions are written by certified instructors to comply with recognized best practices for test item composition, and are reviewed by working fire service professionals. However, they have not been subject to a formal validation process. Each question is page-referenced to the corresponding textbook.
